2058	Thu 22	Thu 14.15	Ms Naňková	4 th Medical Dept.

In later classes, at the patients’ bedside, all students must wear white lab gowns with name badges (e.g. small transparent plastic folders to hold their ISIC). It is recommended that they compile an own list of questions, using the materials displayed at <https://udl.lf1.cuni.cz>, and make sure they understand the questions and can pronounce them correctly. The book *Jenom kostra / Just a skeleton* (by L. Hrubantová et al.) may be useful as well.
